Technical Skills

Frontend: ReactJS, NextJS, Javascript, Typescript, Tailwind, Redux, Zustand
Backend: NextJS, Laravel, Typescript, Javascript, NodeJS, TRPC
Database: MySQL, PostgresSQL
Version Control: Git, BitBucket
Devops: AWS, Docker, Kubernetes, CI/CD
Management: FIgma, Trello, Asana, Jira

Experience

Brief   Dec 2021 – Present
Full-stack developer   *Paris, France*
- Led the design and implementation of responsive user interfaces in ReactJS, resulting in a 15% improvement in user satisfaction scores.
- Guided a cross-functional team in implementing a new feature with NextJS and TRPC, resulting in a notable 20% increase in user engagement within the initial month.
- Optimized application performance with Prisma and Postgres, resulting in a 15% increase in speed by refining database queries and minimizing page load times.

Pairroxz Technologies   Nov 2020 – Dec 2021
Backend Developer   *Jaipur, Rajasthan*
- Designed and implemented Rest APIs with Laravel, and used MySQL for database and AWS for deploying the websites.
- Optimized data retrieval using MySQL and Laravel Eloquent ORM, achieving a 20% reduction in fetching time for enhanced system performance.
- Employed Trello for effective project management, organizing tasks, and ensuring a streamlined workflow in the development process.

Projects

FoodNFeed | NextJS 14, Tailwind, TRPC, Typescript, Next Auth, Prisma ORM, AWS, Postgres, AWS S3, Docker
- Implemented TypeScript and tRPC to enhance backend development, resulting in a 20% improvement in API reliability.
- Integrated Next.js for a 15% improvement in frontend responsiveness, complemented by visually appealing UIs using Tailwind CSS.
- Reduced deployment time by 30% through Docker, ensuring consistent and efficient deployment across various environments.

SimpleWeb | Laravel, Javascript, Jquery, Ajax, AWS, MySQL, AWS S3
- Developed an intuitive website builder dashboard with Laravel, improving user efficiency in creating and enhancing business websites.
- Implemented a streamlined CI/CD pipeline with Gitlab CI/CD and Docker, reducing deployment time by 40% for consistent and reliable releases.
- Improved overall user productivity by 25% through the implementation of user-friendly features in the website builder dashboard.

HR-Matters | Laravel, Jquery, RestAPIs, AWS, AWS S3
- Architected and implemented a scalable RESTful API using Laravel and Laravel REST Framework, resulting in a 30% improvement in data retrieval speed.
- Contributed to a collaborative backend team, responsible for implementing REST APIs. Ensured seamless integration with the frontend team to guarantee functionality and performance.

Education

Rajasthan Technical University   Aug 2019
Bachelor of Technology in Computer Science (74 Percentage)   *Jaipur, Rajasthan*
